binder

binder, German producer in the field of circular connectors, specialized in connectors for measurement and control technology as well as automation.

- Industrial connectors – Snap-in IP40, Bajonett, Micro Push-Pull, M9 IP40, M16 IP67 ...
- Automation technology – M5, M8, M12-A and M12-B, M12-D, M12-S, M12-T, 7/8"
- Power connectors – M23, RD24, Bajonett HEC, RD30
- Connectors for Medical applications
- Accessories & LED Industrial lights

COMPONENTS & SWITCHES

> Product overview

> Tactile Switches

> Emergency buttons

> E-Box

RAFI - one of the world's leading suppliers of high-performance solutions for Human - Machine – Interfaces (HMI) and Electronic Manufacturing services (EMS) – RAFI has grown to become an international high-tech company with more than 100 years of history. The RAFI Group is characterized by its independence, healthy growth and profitability.

- Control and Signaling
- Components (RAFIX, RAMO, Lumotast, E-Box, Signal Lamps, IO-Link, Emergency stops)
- Tactile Switches
- Digital Solutions
- Accessories

NEUTRIK

Neutrik Group develops, designs, manufactures, and globally distributes innovative electrical and electronic interconnect products and systems under the NEUTRIK, REAN and CONTRIK brands. As a multi-brand company, the Neutrik Group has long dominated the world of professional entertainment and industrial applications, setting new standards in a wide range of segments. NEUTRIK offers premium copper connectors and cables, innovative fiber optic systems and unique digital network devices.

Round Connectors:

- Audio-, Entertainment- & Light technic
- Power / Data / Industrial
- Healthcare, Equipotential Bonding

ENCODER

> Catalogue

W+S Messsysteme, Germany, provides many years of experience in creative development, production and innovation of precise optical and magnetic encoders. Specialization in the development and manufacturing of rotary encoders for a wide range of applications, they offer solutions that precisely meet customer requirements and satisfy the highest quality standards.

Ex-encoders of ATEX Directive 2014/34/EU (explosion-protected encoders) are just as much part of the range as

- Incremental Encoders
- Absolute Encoders
- Multiturn Encoders
- Commutation Encoders
- Ex and IP Encoders
- Special encoders
- Draw-wire Systems

PCB TERMINALS

> Catalogue

Established in 1988 as a specialized sub-contracting company, euroclamp began production of printed circuit terminal blocks in 1991. Experience of more than 30 years within a leading group of companies in the electronic field, they have been immediately recognized as a flexible, reliable and highly innovative company. They are a young company with an important technical know-how which allowed euroclamp to grow very fast in the last years both in terms of product offer than presence on a worldwide market.

- PCB terminals
- Plug-in connectors
- Single deck & multi deck
- Barrier terminal blocks
- Screwless plug-in
- Housings

ANTENNAS

> PCTEL Antennas

> Industrial IoT Devices

> Networking Testing Solutions

PCTEL (including many former Kathrein Antennas):

For over 25 years, PCTEL engineers have applied their experience and expertise to solving wireless challenges through: Innovative design, close collaboration with customers and a proven commitment to quality, safety and performance.

Supplying antennas for:

AM/FM, Bluetooth, WIFI, Mobile (2G/3G/4G/5G) and GNSS, GPS, Satellite Bands, Industrial IoT devices, network testing solutions

MOBILE TECHNOLOGY

> Product overview

RADIO FREQUENCY SYSTEMS

Radio Frequency Systems (RFS) is a globally active developer and manufacturer of RF products for mobile communications, radio relay (waveguides, antennas ...) and broadcasting / defense (cables, connectors, antennas).

The globally active and innovative company employs over 1,300 people worldwide and operates 7 production facilities worldwide.

- Antennas
- DAS Product
- Attenuators
- Earthings
- Jumper cables
- Coax cable
- Leitungslüfter
- Loads
- RET/AISG cables
- Clamps
- Cable assemblies
- Connectors
- Adapters
- Surge protection

DEHYDRATORS

> Product overview

The use of dehydrators from Friedl & Müller makes wet waveguides or coaxial cables a thing of the past. This dehydrator, also known as a line fan, ensures with an adapted overpressure and heating system that no moist saturated air cannot enter into your system.

- 100 liters output per hour
- 300 liters output per hour
- 1000 liters output per hour

CABLES

> Product overview

> SPE

CEAM is not just a simple cable-producer:

They put together innovation, quality and values learnt in a 50-years-story to provide the best-future oriented solutions customized on each of their customer's needs.

- Industrial Ethernet
- Profinet
- Hybrid cables
- Single-Pair-Ethernet – and more
